25X1
25X1 About 7 p.m. on 9 March 1952, a train consisting of 10 boxcars and 30 flatcars was
25X1 at the Dangarten railroad station. Trucks and many tank trucks were being unloaded
25X1 from this train. [redacted]
25X1 the train came from the U.S.S.R. via Gerdauen. The shipment was allegedly not listed
in the record on rail movements. [redacted] another train which
was listed was expected to arrive the next night, and that numerous cars were to be
made available for the transportation of gravel to Puetnitz airfield in March. *

[redacted] Comment. It is possible that the shipment represents a routine motor vehicle
shipment for ground units of the fighter regiment. The actual significance of the
shipment is not known. It is assumed that the shipment may have arrived for a unit
of the fighter regiment stationed at the field.
